RE: Docket 06-121, Media Ownership Further Notice of Proposed Rulemaking

I strongly oppose any action by the Federal Communications Commission to relax or eliminate media ownership limits.

Media consolidation is to blame for the decline in the quality and quantity of local news, the dearth of minority ownership in broadcasting, and the homogenization of programming on TV and radio. Allowing big media companies to own even more media outlets in our local communities will only exacerbate those problems.

Information -- from diverse, competitive and independent sources -- is vitally important to the health of our democracy. I urge you to hold the line against any further consolidation of our media, and to listen to the voices of the people -- not the media corporations -- on this critical issue.

Sincerely,

Name:
